# Reception Long Term Plan

Probus School, will be a place where children's individual needs and abilities will be recognised and nurtured, their successes acknowledged and celebrated. To see Probus School as a place where children are happy, confident and secure in the knowledge that they are valued and listened to, where they can be excited and challenged in an environment that promotes learning at all levels. We aim to give children the strong roots and a secure foundation that their learning can be built upon in a warm, caring and safe environment.

	Specific Areas									

At Probus, we recognise the importance of a strong partnership between parents, carers and staff at school. This is an essential ingredient to the child's success and we encourage parents to contribute to their child's development by sharing their child's learning journey, reading regularly at home and attending parent meetings.

Active Learning: I keep to be a support of the problems of the problems.	Active Learning: I keep trying, I achieve my goals, and I am beginning to correct my mistakes by myself.  Creating and Thinking Critically: I can make links between ideas; I can check my progress and see how well I am doing; I have my								
British Values	Mutual Respect We are all unique. We respect differences between different people and their beliefs in our community, in this country and all around the world. All cultures are learned, respected and celebrated.	Mutual Tolerance Everyone is valued, all cultures are celebrated and we all share and respect the opinions of others.  Mutual tolerance of those with different faiths and beliefs and for those without faith. This is covered through the topic of celebrations.	Rule of Law  We all know that we have rules in school that we must follow.  We know who to talk to if we do not feel safe.  We know right from wrong.  We recognise that we are accountable for our actions.  We must work together as a team when necessary.  Know class rues.	Individual Liberty We all have the right to have our own views. We are all respected as individuals. We feel safe to have a go at new activities. We understand and celebrate the fact that everyone is different.	Democracy We all have the right to be listened to. We respect everyone and we value their different ideas and opinions. We have the opportunity to play with who we want to play with. We listen with intrigue and value and respect the opinions of others.	Recap of all British Values Fundamental British Values underpin what it is to be a citizen in a modern and diverse Great Britain valuing our community and celebrating diversity in the UK. Fundamental British Values are not exclusive to being British and are shared by other democratic countries.

<u>Early Learning Goals</u>: Show an understanding of their own feelings and those of others, and begin to regulate their behavior accordingly. Set and work towards simple goals, being able to wait for what they want and control their immediate impulses when appropriate. Give focused attention to what the teacher says, responding appropriately even when engaged in an activity, and show an ability to follow instructions involving several ideas or actions.

# **Physical** Development

We aim to develop a love for physical activity for life. To develop the physical literacy journey in all learners and to further enhance the social. emotional and physical wellbeing in all children.

### Daily opportunities for:

Fine motor skills: To continually check the progress of children's handwriting. (Pencil grip, letter formation, including directionality). Children are provided with extra help and guidance when needed. Half termly name writing assessment and dough disco every week.

Gross motor skills:

Physical activity is vital in children's all round development, enabling them to pursue, happy, healthy and active lives. Gross and fine motor experiences develop incrementally throughout early childhood, starting with sensory explorations and the development of a child's strength, co-ordination and positional awareness through tummy time, crawling and play movement with both objects and adults. By creating games and providing opportunities for play both indoors and outdoors, adults can support children to develop their core strength, stability, balance and spatial awareness, co-ordination and agility, Gross motor skills provide the foundation by developing healthy bodies and social and emotional well-being. Fine motor control and precision helps with hand-eye-co-ordination, which is later linked to early literacy. Repeated and varied opportunities to explore and play with small world activities, puzzles, arts and crafts and the practice of using small tools, with feedback and support from adults, allow children to develop proficiency, control and confidence.

Threading, cutting, weaving, playdough. Fine motor activities: manipulating objects with good fine motor skills. To draw lines and circles using gross motor movements. Hold pencil/paint brush beyond whole hand grasp. Pencil grip.

Taking shoes off and

Half termly portrait

drawing assessment.

putting them on.

Doing up zips and

buttons.

Fine motor activities: Develop muscle tone to put pencil pressure on paper. To use tools to effect changes to materials. To show preference for a dominant hand. To teach and model correct letter formation. To engage children in structured activities: to guide them in what to draw, write or copy-Half termly portrait drawing.

Threading, cutting,

weaving, playdough.

Threading, cutting, weaving, playdough. Fine motor activities: To begin to form letters correctly. To handle tools, objects, construction and malleable materials with increasing control. To encourage children to

draw freely. To hold small items. To independently button clothing, zips. Cutting with scissors.

Threading, cutting, weaving, playdough. Fine motor activities: To hold pencil effectively with a comfortable grip. To form recognisible letters with the majority correctly formed.

Threading, cutting, weaving, playdough. Fine motor activities: To develop pencil grip and letter formation continually. To use one hand consistently for fine motor tasks. To cut along a straight line with scissors. To start to cut along a curved line, like a circle.

Threading, cutting, weaving, playdough. Fine motor activities: To form letters correctly. To cut out a shape using scissors. To begin to draw diagonal lines, like in a trianale. To start to colour inside the lines of a picture. To draw pictures that are recognisible. To build things with smaller linking blocks, such as Lego.

Cosmic Kids Yoga Wake and Shake

#### Introduction to PE: Get Set 4 PE Unit 1 Scheme

To learn the basic principles of a PE session such as finding a space, freezing on command, using, and sharing

Introduction to PE: Unit 2

To explore structured movement through the topic of 'everyday life'. To recap basic principles from Unit 1

## Dance: Unit 1

To develop expressive movement. To explore space and use it safely. To explore travelling movements, shapes and balances.

## Dance: Unit 2

To develop expressive movement. To explore and use space safely. To explore travelling actions, shapes and balances.

# Games: Unit 1 To develop an

understanding of playing games. To practice and further develop fundamental movement skills

# Games: Unit 2

To practice and further develop fundamental movement skills. To learn and develop these skills through a variety of games.

with a partner and group.
To take part in activities which develop fundamental movement skills such as running, jumping, and skipping.

working individually,

equipment and

and continue to take part in activities which develop fundamental movement skills such as running, jumping, and skipping.
To play games to understand and use rules.

To choose actions as a response to stimulus. To be given opportunities to copy, repeat and remember actions.
To introduce counting to help keep in time with music.
To perform to others and provide simple

feedback.

Gymnastics: Unit 1 To develop basic gymnastic skills by creating shapes, balances, and jumps. To begin to develop rocking and rolling. To show an awareness of space and how to use it safely to perform basic skills on both floor and apparatus. To copy, create, remember, and repeat short sequences. To begin to understand using levels and directions when

travelling and balancing.

To choose actions in response to a stimulus. To copy, repeat and remember actions. To continue to count to help keep in time with the music. To explore dance through the world around them. To perform to others and provide simple feedback.

Gymnastics: Unit 2 To develop basic gymnastic skills by exploring and creating shapes and balances. jumps and rolls. To develop an awareness of space and how to use it safely. To perform basic skills on both floor and apparatus. To understand and use levels and directions when travelling and balancing.

through games.
To learn to play by
the rules, work with
a partner and begin
to understand what a
team is, as well as
learn how to behave
when winning and
losing.

Ball skills: Unit 1 To develop fundamental ball skills such as rolling and receiving a ball, throwing to a target, bouncing and catching, dribbling with feet and kicking a ball. To develop fine and gross motor skills through a range of game play using a variety of equipment. To work independently and with a partner.

To learn how to work as a team, take turns, keep the score against an opponent and play by the rules.

Ball skills: Unit 2 To develop fundamental ball skills such as throwing and catching, rolling a ball, using targets, dribbling with feet, kicking a ball, bouncing and catching a ball. To develop fine and gross motor skills through a range of game play with balls. To work independently and with a partner to develop decision making and using simple tactics.

<u>Continuous Provision</u>: Co-operation games: parachute games. Climbing: Outdoor equipment, including play crates and planks for creating obstacles. Outdoor: Children are also provided with a range of wheeled resources to balance, sit and ride, or pull and push. Two wheeled balance bikes, wheelbarrows, prams and cart. Children are supported to develop good personal hygiene, with regular reminders throughout the day for hand washing and toileting.

<u>Taken from Development Matters:</u> Revise and refine the fundamental movement skills they have already acquired, rolling, crawling, walking, jumping, running, hopping, climbing, skipping. Progress towards a more fluent style of moving with developing control and grace.

Develop all over body strength, co-ordination, balance and agility needed to engage successfully with future physical education sessions and other physical disciplines, including dance, gymnastics sport and swimming. Develop their small motor skills so that they can use a range of tools competently, safely and confidently. Suggested tools: pencils for drawing and writing, paintbrushes, scissors, knives, forks and spoons. To use their core muscle strength to achieve a good posture when sitting at the table or sitting on the floor. Confidently and safely use a range of large and small apparatus indoors and outside, alone and in a group. Develop overall body-strength, balance, co-ordination and agility. Further develop and refine a range of ball skills including: throwing, catching, kicking, passing, batting and aiming. Develop confidence, competence, precision and accuracy when engaging in activities that involve a ball. General Themes: Marvellous Me Nocturnal Nights Farm to Fork Seaside Awesome Autumn Animals How big is big? What makes me a me? Do you remember Where does our food Whose footprints are I wonder what's at when ...? Let's come from? these? the seaside? Celebrate It is crucial for children to develop a life-long love of reading. Reading consists of two dimensions: language comprehension and word reading. Language Literacy comprehension (necessary for both reading and writing) starts from birth. It only develops when adults talk with the children about the world around them and To provide each child the books (stories and non-fiction) they read with them, and enjoy rhymes, poems and songs together. Skilled word reading, taught later, involves both the with the opportunity speedy working out of the pronunciation of unfamiliar printed words (decoding) and the speedy recognition of familiar printed words. Writing involves to become a lover of transcription (spelling and handwriting) and composition (articulating ideas and structuring them in speech, before writing). English by providing I can show a I can talk about I am beginning to I can demonstrate I can show interest and I can demonstrate an engaging, preference for a events and answer simple questions understanding when notice if my reading understanding of progressive book, song or rhyme. talking about what I about the text makes sense and looks what has been read characters in a story curriculum in which read to me. have read. right. to me by retelling each child will be able I can use words that I stories and to reach their full narratives using my I can join in with know to check my I can repeat words or I think about what I potential. rhymes and stories. reading makes sense. phrases to check my already know to help own words and I can fill in missing recently introduced reading. me with my reading. Mathematics The Mathematics curriculum has been designed to ensure that children possess the skills and	count confidently, deve frequent and varied o counting-children will curriculum includes <b>rich</b> o	Developing a strong grounding in number is essential so that children develop the necessary building blocks to excel mathematically. Children should be able to count confidently, develop a deep understanding of the numbers to 10, the relationships between them and the patterns within those numbers. By providing frequent and varied opportunities to build and apply this understanding-such as using manipulatives, including small pebbles and tens frames for organising counting-children will develop a secure base of knowledge and vocabulary from which mastery of mathematics is built. In addition, it is important that the curriculum includes rich opportunities for children to develop their spatial reasoning skills across all areas of mathematics including shape, space and measures. It is important that children develop positive attitudes and interests in mathematics, look for patterns and relationships, spot connections, 'have a go', talk to adults and peers about what they notice and not be afraid to make mistakes.								
knowledge that will affect them positively in their lives. Concepts are taught in blocks and have been carefully sequenced to enable learners to make connections. Expressive Arts & Design  Art has the power to	arts, enabling them to explore and play with a wide range of media and materials. The quality and variety of what children see, hear and participate in is a understanding, self expression, vocabulary and ability to communicate through the arts. The frequency, repetition and depth of their experiences are fur in interpreting and appreciating what they hear, respond to and observe.

Access Art programme is also used to develop skills and progression across EYFS. (Detailed in Mid term plans)

## Computing and ICT

Our aim is to provide children with opportunities to build creativity whilst developing their skills in computational thinking.

Identify everyday technology: Links to technology at home.

Make marks on a digital device to communicate their ideas-iPads (Links to the colour monster).

To screenshot using the home and lock buttons.

To understand the basic functions of an ipad. (home, lock and volume buttons)

To use the Tonie box to play stories and control volume.

#### SMART RULES

To tell an adult if they see something on a device that upsets them.

To know not to give out any information about themselves.

To know that not everything they see on the internet is true.

To know that ICT may be used to communicate information electronically.

To know that digital devices can present information in a variety of ways.

To navigate their way around an iPad and operate several apps confidently.

#### SMART RULES

To tell an adult if they see something on a device that upsets them.

To know not to give out any information about themselves.
To know that not everything they see on the internet is true.

To use a range of devices to record information in a range of formats. (text, image and sound)

Introduce iPad to continuous provision to capture own learning.

#### SMART RULES

To tell an adult if they see something on a device that upsets them.

To know not to give out any information about themselves.
To know that not

To know that not everything they see on the internet is true.

To use a range of devices to record information in a range of formats. (text, image and sound)

To use iPad to document changes to the tadpoles/seasonal changes and weather.

#### SMART RULES

To tell an adult if they see something on a device that upsets them.
To know not to give out any information about themselves.
To know that not

To know that not everything they see on the internet is true.

To identify how technology is used to share information (Google Maps)

Use of orboot globe and iPad use of technology.

#### SMART RULES

To tell an adult if they see something on a device that upsets them.

To know not to give out any information about themselves.

To know that not everything they see on the internet is true.

To know that information may be stored on a digital device.

To explore a website as part of research conservation-sea life.

#### SMART RULES

To tell an adult if they see something on a device that upsets them.

To know not to give out any information about themselves.

To know that not everything they see on the internet is true

# Barefoot Programme for EYFS used to support ICT

## <u>Logical Reasoning:</u> anticipating and explaining.

AWESOME AUTUMN
Age: 4-6 years

Curriculum Links: Early Years

> Concepts & Approaches: Creating, Pattern, Logic, Algorithms, Decomposition, Collaborating

using computational thinking skills.

Three Autumn themed activities which see the children explore patterns in Garlands Galore, create a leaf labyrinth and make Pumpkin Soup

WINTER WARMERS
Age: 4-6 years

Curriculum Links: Early Years

Concepts & Approaches:

Algorithms, Creating, Collaboration, Decomposition, Tinkering, Persevering

Snowmen scarves and patterns, creating igloos and bird feeders- all take centre stage in our three winter themed activities.

SUPER SPACE Age: 4 - 6 years

Curriculum Lin

Concepts and Approaches:

Algorithms, Collaboration, Persevering, Creating, Pattern, Logical reasoning, Tinkering, Abstraction

Includes 3 space themed activities to develop pupils computational thinking and problem solving skills. Include creating algorithms to direct a rocket through space and spotting patterns in pictures of aliens.

SPRINGTIME
Age: 4-6 years

Curriculum Links: Early Years

Concepts & Approaches:

Abstraction, Tinkering, Creating, Collaborating, Algorithms, Persevering, Decomposition

Three Spring themed activities see the children make a Rabbit run, create Junk scarecrows and explore sequencing whilst planting seeds.

BUSY BODIES Age: 4-6 years

Curriculum Links: PSHE, English, Science

Concepts & Approaches:

Algorithms, Decomposition, Debugging, Logic, Patterns, Abstraction

Provides four activities that help children discover how bodies move and grow. Using the resources provided they explore and learn about parts of the body, growth and movement.

Simple algorithms are created and adapted to form a routine of movements

BOATS AHOY Age: 4-6 years

Curriculum Links: Science, Maths, English, D&T

Concepts & Approaches:

Algorithms, Decomposition, Creating, Tinkering,
Logic, Patterns, Abstraction, Collaborating

Takes children on a journey of discovery as they investigate boats. Four activities make up this set of resources. Includes different uses of boats, floating and sinking predictions, creating a good boat through exploring designs and role nlaw.

Abstraction: Working out what is important and ignoring what is not important.			SUMMER FUN Age: 4-6 years Curriculum Links: Science, Maths, English, D&T
Pattern: Comparing, spotting similarities and differences.			Concepts & Approaches: Tinkering, Persevering, Patterns, Logic, Decomposition, Debugging, Collaborating, Algorithms Children explore their surroundings and get creative, take a journey and make a map, and discover seaside tangrams, in these three fun activities.
Algorithms: Instructions and sequencing			
<u>Decomposition:</u> Breaking problems down into steps.
